

Hugo Cayuela

PhD in Ecology & Evolution

- Nationality: French
- Professional address: Institut de Biologie Intégrative et des Systèmes (IBIS), Pavillon Charles-Eugène Marchand 1030 rue de la Médecine, Université Laval, G1V 0A6 Québec, Canada
- Phone number: (418) 670-2716
- Mail: hugo.cayuela51@gmail.com

RESEARCH

I am broadly interested in ecology and evolution. My research focuses on three main items:

INTERESTS

1. I focus on demographic processes and life history evolution. I investigate the synergic effects of internal state variables and environmental factors (e.g., climate) on demographic rates and population long-term viability. I also examine how local environmental variation drives life history strategies in wild populations. Furthermore, I investigate the evolution of senescence and its ecological correlates in ectotherm tetrapods, a group of amniotes that have been neglected for a long time by aging studies.
2. I focus on dispersal ecology and evolution. I examine how social and environmental factors affect dispersal decisions. I also investigate how genetic background and transgenerational plasticity determine related-trait dispersal and the architecture of dispersal syndromes, i.e., covariation patterns between dispersal and individual phenotype. In addition, I seek to understand how context-dependent dispersal and dispersal syndromes affect neutral and adaptive genetic variation in spatially structured populations.
3. I investigate population genomic, local adaptation, and other evolutionary processes (e.g., gene flow and introgression among lineages) using next-generation sequencing technologies. In addition, I examine how sequence polymorphism, structural variants, gene expression and methylation profiles along the genome determine phenotypic variation (e.g., dispersal-related and life history traits) in wild and experimental populations.

CURRENT ACTIVITY

Postdoctoral researcher, Louis Bernatchez's Lab, Laval University, Québec, CANADA.

EDUCATION

- 2018-to present: Postdoctoral fellow, Louis Bernatchez's Lab, Laval University, Québec, CANADA, Banting postdoctoral fellowship.
- 2017-2018: Postdoctoral fellow, Louis Bernatchez's Lab, Laval University, Québec, CANADA, funded by the FRQNT.
- 2016: Postdoctoral fellow, ATER, University Claude Bernard, FRANCE.
- 2015: State license for animal experimentation (level 1) accredited category C by Federation of European Laboratory Animal Science Associations (FELASA)
- 2012-2016: PhD, CNRS, UMR 5023 - LEHNA (Laboratoire d'Ecologie des Hydrosystèmes Naturels et Anthropisés), University Claude Bernard, France. Thesis, March 11, 2016, <http://www.theses.fr/2016LYSE1034>

TEACHING & STUDENT FORMATION

- 2018-to present: Co-supervision of the PhD thesis of Laurent Boualit, Lausanne University.
- 2015-2016: Regular teaching activities at Bachelor level, University Claude Bernard.
- 2012-to present: Supervision of 14 students in Master degree.

GRANTS & AWARDS

- 2018-to present: Banting Postdoctoral fellowship: Genomic bases of dispersal evolution in a protist: parallelism or convergence?, with Prof. Bernatchez, Laval University, Québec ; 140 k\$
- 2017-2018: FRQNT Postdoctoral fellowship: Population genomics, life history and adaptive variation in *Mallotus villosus*, with Prof. Bernatchez, Laval University, Québec; 45 k\$
- 2015-2016: Bombina project: Dispersal syndromes, life history variation and population genetics, with Prof. Joly, University Claude Bernard; 25 keuros

GRANTS & ■ 2012-2016: PhD fellowship: Responses to spatiotemporally variable environment: sex, dispersal
AWARDS and life history tactics, with Prof. Joly, University Claude Bernard; 65 keuros
